

NISHANT SHEKHAR

AI Systems Engineer · AI Agents · LLM Applications · Automation

Delhi, India | +91 8586970615 | nshekhar301@gmail.com | linkedin.com/in/nishant301

SUMMARY

AI Systems Engineer who ships production AI end-to-end as the **sole engineer** at a 150+ client consultancy — from problem discovery with founders through architecture, deployment, and team training. Built a live analytics platform covering **70+ restaurant outlets, 4 production AI agents** with human-in-the-loop safeguards, and an internal operations platform used daily across Sales, HR, Finance, and Operations — together eliminating **~5 hours of manual work per day**.

EXPERIENCE

AI Systems Engineer (Sole Engineer) — Plateful Consulting

Feb 2026 – Present

Restaurant-growth consultancy serving 150+ clients across India; sister company Plateful Technologies builds AI products. New Delhi.

- Own the entire engineering function — work directly with founders, sales, HR, and operations to find bottlenecks, then scope, architect, build, deploy, and iterate on production systems solo, with no PM and no spec.
- Shipped **10+ production automation workflows** and **4 production AI agents** on Claude, OpenAI, and Gemini APIs — outbound WhatsApp outreach with Telegram hot-lead alerts, a Hinglish lead-nurture drip engine, a Reddit lead-gen agent with 100% human approval before posting, and a RAG assistant with citation-backed answers — eliminating **~5 hours/day** of manual work across hiring, lead generation, reporting, and social publishing.
- Built client-facing analytics infrastructure that auto-collects Swiggy partner metrics daily across **~30 client accounts and 70+ outlets** — live, self-updating dashboards used by clients and internal teams; manual reporting eliminated.
- Trained founders and non-technical staff across sales, HR, and operations to run dashboards, agents, and workflows independently — adoption measured by daily use, not delivery.
- Exercise production judgment: mandatory human approval on all public-facing AI output, hard rate caps and send windows to protect messaging accounts, AES-256-GCM-encrypted session storage for authenticated scraping, and a 7-gate ad-policy compliance check before any creative ships.

KEY PROJECTS — LIVE & HOSTED

- **Swiggy Analytics Platform** os.platefulconsulting.com/Swiggy
Playwright · GitHub Actions · Supabase · Cron — Daily automated scraping of Swiggy partner metrics across ~30 client accounts and 70+ outlets, upserted to Supabase and rendered in self-updating hosted dashboards used by clients daily. Architecture now being replicated for Zomato, with OTP-gated logins solved via encrypted session reuse.
- **Propalate OS — Internal Operations Platform** os.platefulconsulting.com
Next.js · Supabase · Firebase Auth · RBAC — Company-wide command center unifying CRM, sales pipeline, revenue & payments, HR (salary slips, F&F settlement), tasks, and aggregator analytics — role-based access, audit logging, 10–15 daily users.
- **ReplyJi — WhatsApp AI Auto-Reply SaaS** replyji.com
Next.js · Node.js · Baileys Microservice · LLM APIs — Context-aware, multi-language and multi-tone AI auto-replies with scheduled messaging. Persistent WhatsApp microservice architected separately from the web app for connection persistence and independent deployment.
- **Plateful Technologies — 3D Marketing Site** platefultechologies.com
Three.js · WebGL · Lead Capture — Interactive 3D marketing site for the AI services arm — performance-optimized animations and lead capture supporting the enterprise sales motion.

TECHNICAL SKILLS

AI & LLM: Claude API · OpenAI · Gemini · RAG · Embeddings · Vector Search (Pinecone, FAISS) · LangChain · Prompt Engineering · Agent Design · Human-in-the-Loop Evaluation

Automation: n8n · Playwright · GitHub Actions · WhatsApp Cloud API / Baileys · Webhooks · REST APIs · Cron Scheduling

Engineering: Python · Node.js · JavaScript · SQL · Supabase · Firebase · React · Next.js · Chrome Extensions (MV3)

Infrastructure: Oracle Cloud · Hostinger · Git · CI/CD

EDUCATION & CERTIFICATIONS

Guru Gobind Singh Indraprastha University — University School of Automation and Robotics, New Delhi

Siemens Certified Trainee — CNC Operations & PLC Programming (TIA Portal), Punjab Engineering College
